

In pursuit of our objective to improve access to needed medication, Cystic Fibrosis Canada is calling on the federal government to stop the changes to the PMPRB and reconsider those that are denying or delaying access to life-changing precision medicines, such as Trikafta.

To amplify our voice and the voice of the cystic fibrosis (CF) community, we need your help on social media. We ask that you tell the government that #CFcantwait and that you tell your federal MP to stop the PMPRB changes impacting access to life-changing CF drugs.

Here are some ways you can participate using social media.

Please do the right thing, @[INSERT MP]. Stop the PMPRB changes impacting access to life-changing drugs for cystic fibrosis before it's too late. #CFcantwait
